

## ***A Message from Our President and Chief Operating Officer***

*May 12, 2021*

### **Continue to Heed COVID Precautions**

Even though statewide mask mandates have loosened to a degree in Louisiana, it is important to share with you that, at RoyOMartin, we are still taking COVID very seriously. All of our previously-shared precautions are still active and in place. These include:

- Wearing a mandatory mask or appropriate facial covering when gathering in a group setting, working within 6 feet of others, riding in vehicles with others, and walking in and out of buildings with others.
- Maintaining social distancing guidelines when at all possible.
- Staying home when you're sick. Do not come to work. Call Health Services or Legacy Health & Wellness first. Coming to work when sick is the #1 way to expose your team members, as well as potentially exposing their families and friends.
- Washing your hands often and sanitizing shared spaces, keyboards, cabs, etc.

It is important to know that Governor Edwards left it to private businesses to make their own determinations about mask requirements. We will hold firm on maintaining these precautions that have kept us safe and working throughout the pandemic when many others have shut down or run fewer shifts.

Your health and safety are our number-one priority. Know that we will continue to monitor the situation.

**E. Scott Poole**
